Altra-Air Fans

With WhalePower Technology

U.S. Patent No. 6,431,498

The Altra-Air Advantage

Altra-Air fans with WhalePower Technology is a green power breakthrough which allows our High Volume Low Speed (HVLS) fans to deliver previously impossible levels of performance.

WhalePower Blade Profile

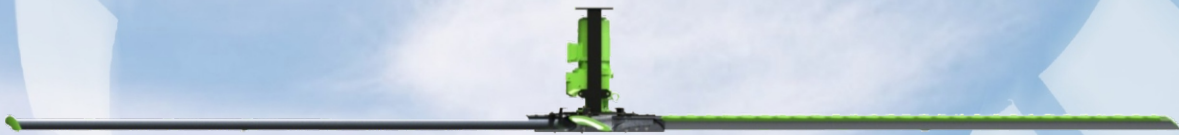

- Five Bladed Design
- Inexpensive operation
- Unparalleled Blade Angle means more air

Outdated Technology

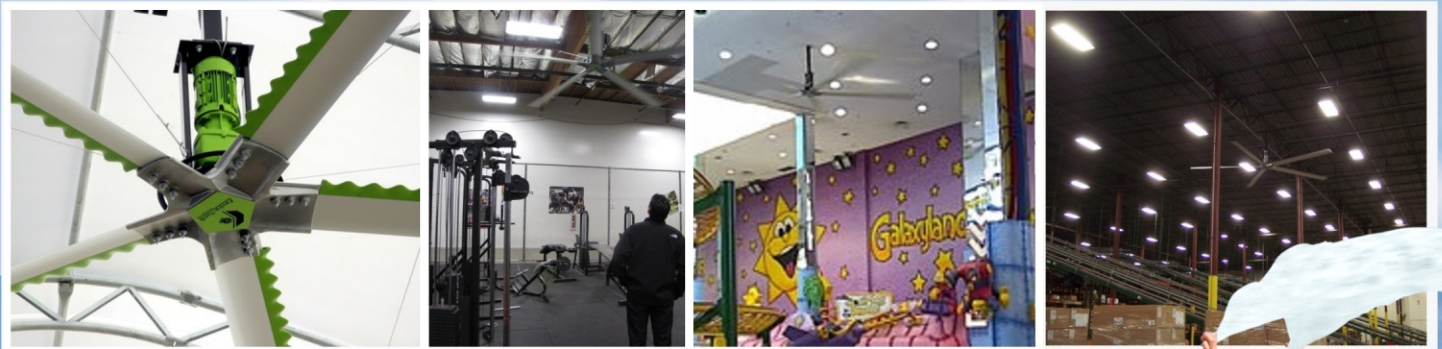

- Very Low Decibel Level
- Consumes 20% Less Power
- Simply the best performing fan on the market

8' to 24' Diameter Available

These HVLS fans are simply outstanding when compared to what was previously state-of-the-art fans. We are proud to acknowledge that no other blade can outperform a Tubercle Technology™ blade when it comes to generating substantially greater lift while reducing drag.
