

Supreme Gel

Breathable Comfort.

Our class-leading high density open-cell gel foam is designed to not only support your cows body and relieve pressure but also disperse heat more efficiently to maintain a comfortable sleeping temperature by preventing warmth from building up within the mattress.

Applications

Cows, heifers & youngstock

Properties

A seamless mattress system. Fully sealed mattress beds that won't hold moisture or bacteria. Clinically correct support. Cooler sleep.

Gel Supreme provides everything you (and your animals) could wish for in a mattress: grip, comfort, durability, and quality that will hold its value for years to come.
